

16TH INTERNATIONAL PASSIVE HOUSE CONFERENCE 2012

Press release

Deadline for submission of papers: 31 October

Darmstadt/Hanover, 14. October 2011 – The organisers of the 2012 International Passive House Conference invite all interested parties to submit their contributions to the Passive House Institute by 31 October. Further information about themes and submission are available at www.passivehouseconference.org

Passive House – Driving innovation worldwide

“At the International Passive House Conference, experts from all over the world meet to scientifically discuss issues regarding the latest questions about – and solutions for – Passive Houses”, says Wolfgang Feist, Professor of the University of Innsbruck Building Physics Unit and Director of the Passive House Institute, Darmstadt.

The 2012 Conference is expected to feature more innovative energy efficiency solutions than ever. Harmonising outstanding architecture and excellent energy performance, tackling climate zone related challenges, developing Passive House components and energy efficient appliances, introducing concepts for the market uptake of Passive House worldwide – these are among the many issues to be addressed at the conference.

Quality, comfort and sustainability – that’s what Passive House has stood for throughout the last 20 years with over 32,000 examples across Europe, North and South America, Africa and Asia.

Reaching out to the entire range of construction professionals and the general public alike, the 5 day framework programme will encompass a variety of side-events including world class seminars, expert and craftsmen forums, courses for Passive House newcomers, a job fair as well as an exhibition featuring a variety of energy efficient components and solutions. These events are then to be rounded off by excursions, allowing visitors to get first hand experience with real Passive House buildings.

16th International Passive House Conference
